The league of local amateur bowling teams proved a brilliant seccess last season, and as heretofore stated in Tan Washingrox Times, re-organization for the coming season has already been had.

So gratifying were the results of the league work to those who were instrumental in arranging it, that strong efforts were made to bring together the several organizations for the purpose of forming a basket-ball league. The time is now at hand and the game will again be taken up, and unofficially a desire has been expressed by members of at least two teaching the several together. two teams that an organization for a series of inter-club games be effected.
